

Characteristics

CLEANING MACHINES FOR UNCLASSIFIED (GENERAL PURPOSE) AREAS

All the electrical components are certified by an NRTL such as UL, CSA or ETL

- Intended for the recovery of welding and grinding fumes in an automotive body shop environment
- Ideal for intermittent MIG welding and occasional grinding of aluminum body panels and aluminum vehicle frames
- Eliminate welding fumes at the source
- 2-stage filtration system consisting of a metal mesh spark trap filter and a disposable main compact filter
- Filtration efficiency of 99% on 0.5 micron (Class F9 as per Standard EN779:22)
- Low pressure, high flow rate. 1200 CFM (2000 m³/h)
- Heavy Duty welded construction
- Heavy duty wheels and swivel castors. 2 wheels are equipped with brakes
- Handles for ease of movement
- Easy access to filters
- Low center of gravity to prevent tipping
- Spark trap metallic filter included
- Filter blockage indicator light
- Optional dust extraction arms and mounting plates with flange

Specifications
